- Founded in 2000

CLIENT QUOTE:

"The risk associated with mail handling, six day a week distribution, mail forwarding and package delivery, were factors in deciding to outsource our mail management."

Kennesaw State University Housing
Foundation Management, LLC

COMPANY BIO

Since 2000, US Postal Solutions, Inc. (Postal Solutions) has become the pioneer in the student and military housing mail delivery industry. Postal Solutions provides hassle-free, reliable, mail management service six-days-per-week. We specialize in public and private, on- and off-campus, collegiate mail services. Postal Solutions currently manages US mail collection, sorting, delivery, and forwarding to over 35,000 mail recipients.

We give clients peace of mind by offering an array of high-level traditional insurance coverages which include terrorism insurance and bonding against employee dishonesty and theft. Additionally, we remove the risk, responsibility, and the laborious task of resolving mail issues. Postal Solutions includes 24/7/365 live-operator, toll-free customer service, online package resolution, and a seamless mail forwarding program.

CLIENT SYNOPSIS

The US Postal Service traditionally does not deliver mail to colleges or universities of any type. Our target client is an academic institution or university planning to outsource mail delivery services. These institutions often do not want to assume the staffing, risk, and liabilities associated with daily mail delivery duties. The array of tasks, including: time, questions, daily interactions associated with sorting, delivery, addressing, re-addressing, and forwarding of return mail/parcels are often undesirable responsibilities.

QUALIFICATIONS

As a fully licensed, bonded, and insured organization serving the United States, Postal Solutions offers clients peace of mind by holding many of the higher limits in general liability, automobile, worker's compensation,

terrorism, employee dishonesty, and errors and omissions insurance and bonding. Our experienced Mail Managers and management staff have met strict background requirements and have completed all United States Postal Service documentation necessary for management of US mail.

SOLUTIONS

Experienced Mail Managers provide superior timing, retrieval, and delivery of mail while removing your liability for its receipt and care by using professional sorting and delivery methods. Our Collegiate Mail Services program minimizes mail-related inquiries and reduces liabilities. Mail and package resolution is available 24/7/365 via our live-operator customer assistance representatives, web-enabled cell phone, and online at PostalForwarding.com.

MAIL CENTER MANAGEMENT

As your contracted mail center operator, Postal Solutions hires and trains its own mail management staff. Issues of misdirection, reimbursement due to loss, and damage are also eliminated when contracting our mail center services.

ANCILLARY INCOME

Your current mail management expenses could be offset by including advertising revenue, change of address fees, and sales of other mail related items.

RESULTS

Your responsibility for Collegiate Mail Services will be virtually absolved by contracting with Postal Solutions. Our live operators will respond to all mail related inquiries 24-hours-per-day. Should Postal Solutions interest your academic institution, please contact us for a site visit and service proposal.
